

### **The Specification**

Please amend the paragraph on page 10, lines 14-24, as follows:

Fig. 3 illustrates an exemplary computing device 150 such as may be used in accordance with certain embodiments of the invention. Computing device 150 can be, for example, one of a device 120 – 124 of Fig. 2. Computing device 150 includes a server component 152, a client component 154, a memory 156, and a mass storage device 158. Computing device 150 also typically includes additional components (e.g., a processor), however these additional components have not been shown in Fig. 3 so as not to clutter the drawings. Memory 156 can be any of a wide variety of conventional volatile and/or nonvolatile memories, such as RAM, ROM, Flash memory, etc. Mass storage device 158 can be any of a wide variety of conventional nonvolatile storage devices, such as a magnetic disk, optical disk, Flash memory, etc.

Please amend the paragraph on page 35, lines 5-12, as follows:

Fig. 13 shows a general example of a computer 542 that can be used in accordance with the invention. Computer 542 is shown as an example of a computer in which various embodiments of the invention can be practiced, and can be, for example, a computing device 150 of Fig. 3, one of a computing device 120 – 126 of Fig. 2, a computing device 102 or 104 of Fig. 1, etc. Computer 542 includes one or more processors or processing units 544, a system memory 546, and a bus 548 that couples various system components including the system memory 546 to processors 544.
